

Nintex Rapid Value Implementation Package

ACCELERATE TIME-TO-VALUE AND MAXIMIZE RETURN ON INVESTMENT (ROI)

At Nintex, we are committed to the success of your process insight and automation projects. Achieve the full potential of your transformation initiative and fast-track your journey to business impact with the Nintex Rapid Value Implementation Package.

Our professional service experts can help you drive the following deliverables with the Nintex Rapid Value Implementation Package:

- A comprehensive understanding of your current needs
- A set of action steps that result in process efficiency and business impact
- High-quality business enhancements over an expedited timeline
- Accelerated time-to-value within two weeks
- Enhanced business processes via Nintex' best-in-class automation workflow.

If the scale or complexity requires greater effort, we will position you for success via a statement of work (SOW) and apply this package as credit to that SOW.

BE UP AND RUNNING IN JUST 10 BUSINESS DAYS

Nintex Professional Services leverages a world-class delivery framework for rapid solutioning and implementation that aligns to your organizational goals. The package includes up to 40 hours of implementation time, to be concluded within 10 business days from kickoff.
