# Cornerstone Learn
## Close the skills gap

## Stay ahead of change by upskilling faster with AI-powered learning

**Work keeps changing faster and faster. The skills you have now won't be the ones you'll need tomorrow, widening the skills gap. To keep pace, you need to evolve your talent strategies and create an agile workforce. You need to build workforce agility with Cornerstone Learn.**

By embracing the comprehensive learning approach inherent to Cornerstone Learn, your organization can ensure it has the skilled workforce and streamlined insights it needs to grow. At the same time, your people can access the development opportunities they need to grow along with you. By unifying all your learning and development in Cornerstone Learn, you can drive productivity, retention, and performance while creating efficiencies for your organization, all while staying compliant.

### Mobilize training at scale

- Streamline management of required training, certifications, instructor-led training, and more
- Gain real-time visibility into data and insights across your organization
- Enable your people to recognize and address behaviors that lead to breaches in safety, privacy, and ethics
- Uncover predictive factors for noncompliance
- Empower subject matter experts across your workforce to scale their expertise so your people know how to apply knowledge and skills in context
- Deliver, manage, and track global training for your customers and partners to drive customer satisfaction and partner sales

## Reduce risk while providing the growth your people value

**$4.3m**
the average amount in compliance savings by organizations that used Cornerstone over three years.

**2-3x greater self-directed learning** with Cornerstone Learn when compared to admin-directed training alone.

**39% greater retention** of employees who invest 40 or more hours in learning over the course of a year.

## Provide the personalized upskilling your people expect

- Provide personalized, accessible learning experiences across modalities, including award-winning content, collaborative courses, and immersive learning experiences
- Support employee-driven learning through AI-powered recommendations based on self-identified learning goals, roles, and organizational requirements
- Practice and develop soft skills and technical skills with real-life simulations and experiential learning labs
- Facilitate cohort-based learning with a social, collaborative, and gamified experience

## Unify learning experiences and data

- Remove barriers to learning with a unified hub for completing required training, discovering development opportunities, and learning from and with others
- Optimize learning programs with deep insights into skills, learner engagement, and content performance, along with benchmarking based on region, market segment, and industry
- Evolve to meet the needs of your organization with a unified, configurable, and extensible platform

**“Cornerstone Learn simplifies the learning experience by allowing learners to simultaneously engage in both mandated and skill-based training with clear pathways and checkpoints throughout the journey. It’s not just about individual learning but also about ensuring competence.”**

Roche *Diagnostics*

**“Subject matter experts are creating, aggregating, compiling, and distributing content at capacities and speeds never before possible. We’ve been able to seamlessly unify and scale our learning infrastructure in lockstep with business needs, giving us both a competitive advantage and a significant reduction in complexity.”**
