

Right of Way Overview

Expedite right of way with a solution proven throughout 20 years, over 350+ gathering systems, and across 50K miles of pipeline in North America.

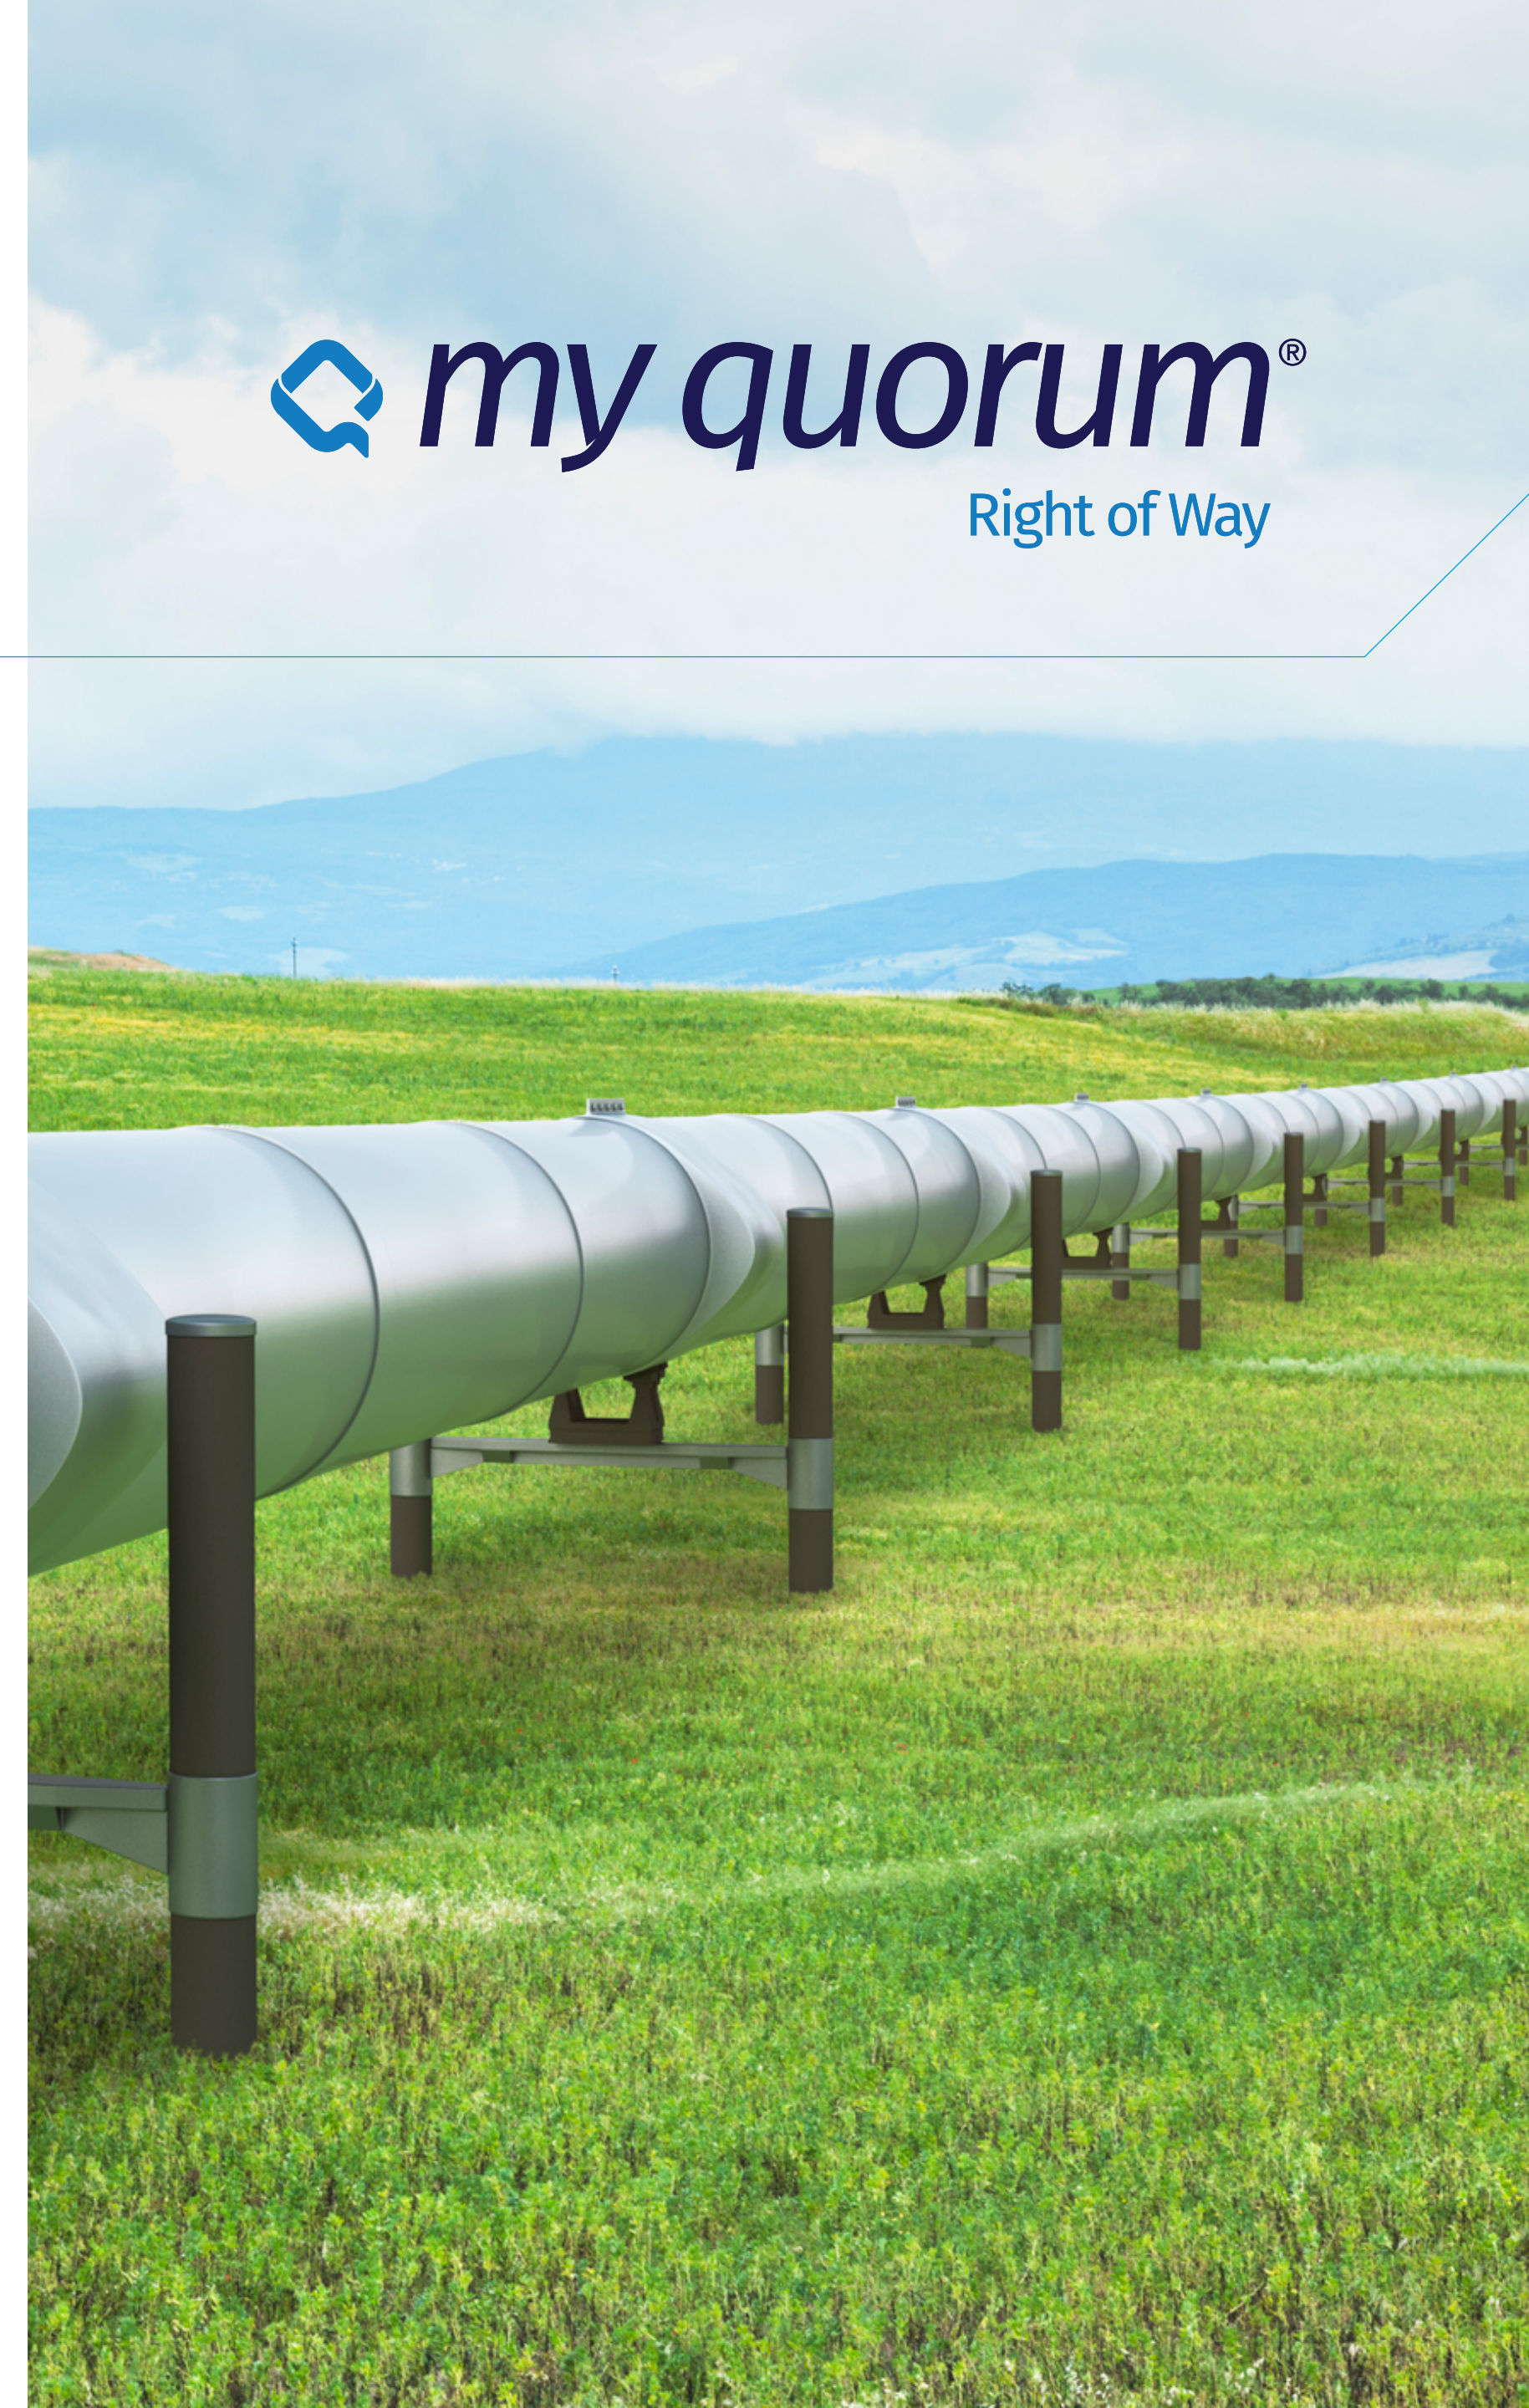

Right of Way

Expedite all pre-construction land activities with proven project management software for right of way that provides companies with a single source to capture ownership and title details, optimize pipeline routes with real-time insight, and ensure data integrity with automated data entry workflows.

Surface Real-Time Insight

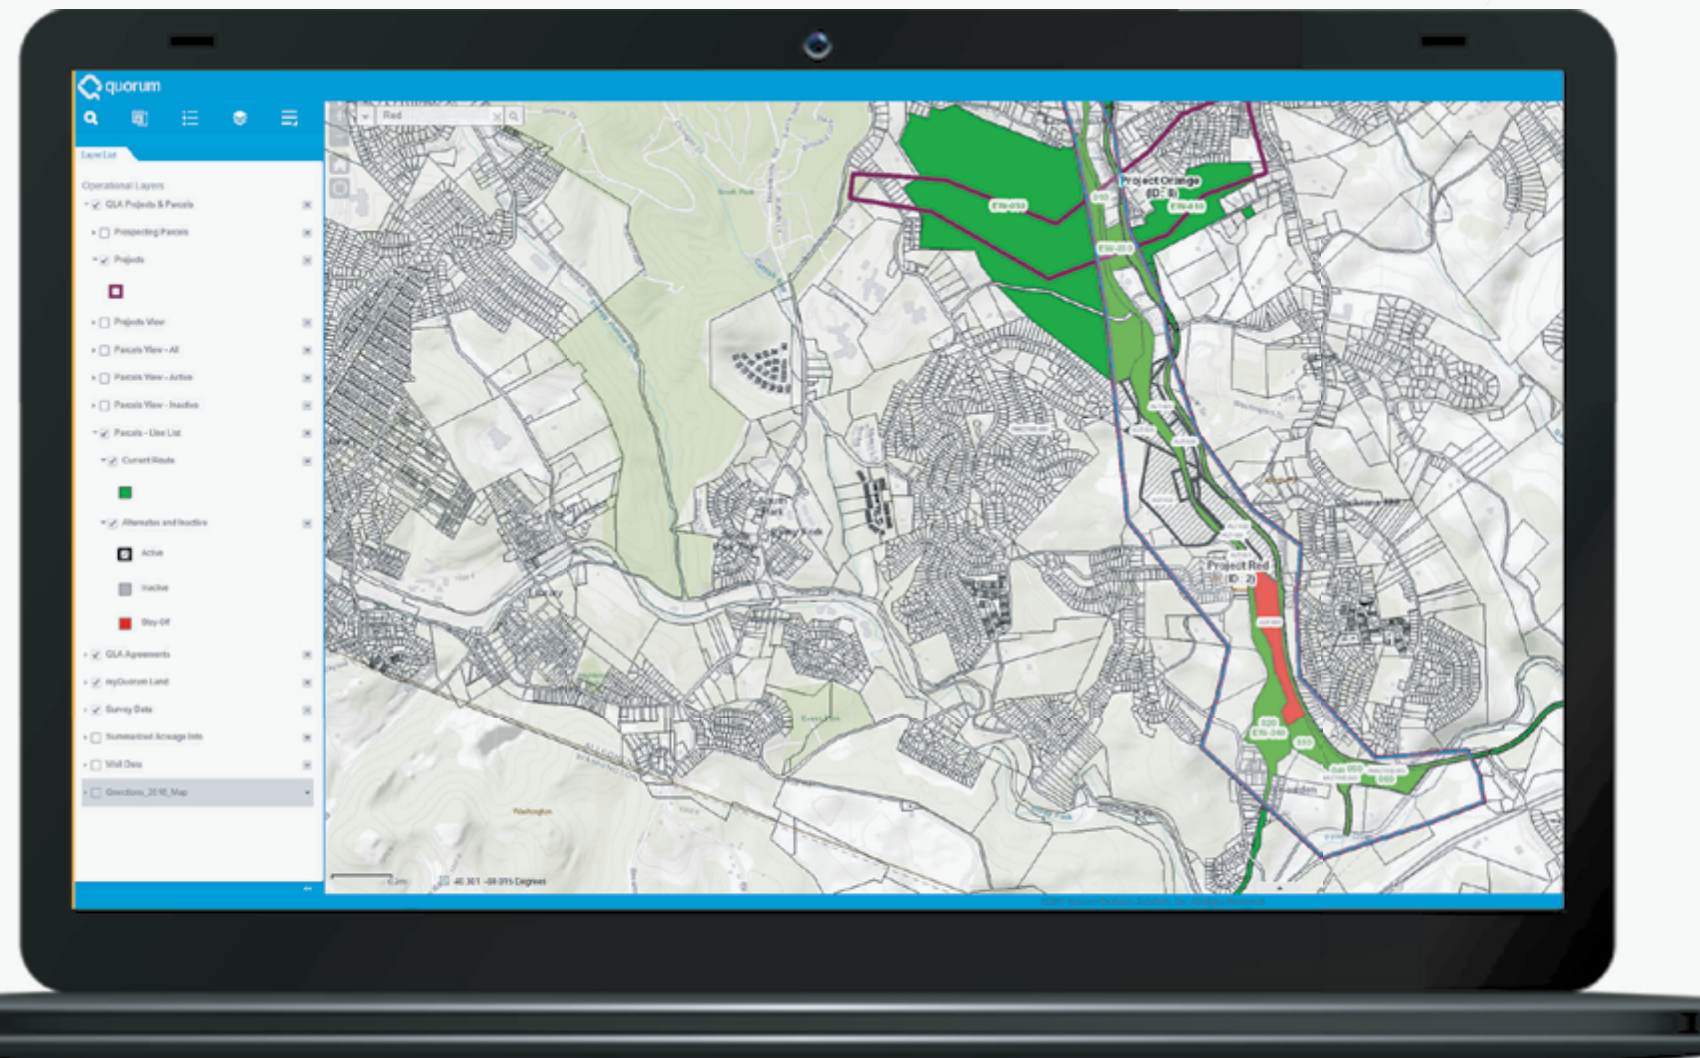

- ◊ Capture and manage all land research and ownership from a single source.
- ◊ Optimize routes using GIS mapping to identify project obstacles in real time.
- ◊ Never miss a deadline with an online payment calendar and electronic alerts.

My Quorum eliminates silos by connecting people, processes, and systems and delivering actionable information

Best-in-Class Functionality

Move away from outdated software that falls short on functionality and integration. Trust the land leader to better your business.

Agreement Capture

Easily view, record, and map agreements with comprehensive detail.

Route Optimization

Analyze parcel details and identify project obstacles in real time with GIS.

Pipeline Sync

Relate a pipeline to an agreement and report on where they cross.

Online Title

Avoid title complexity by calculating, tracking, and reusing title online.

Broker Review

Assign tasks to brokers, review their input, and track all of their progress.

Online Calendar

Instantly recommend and approve payments, obligations, and expirations.

File Upload

Attach files, assignments, and images associated with an agreement.

Contact Log

Track all landowner details like name, number, negotiation notes, and more.

Ad-Hoc Reporting

Run standard reports or create custom reports that fit specific business needs.

My Quorum applications deliver consumer-like, web experiences that are modern and user-friendly across every smart device - desktop, tablet, and mobile. Relevant information is surfaced for each persona, streamlining processes and simplifying workflows.

Quorum Software powers growth and profitability for energy businesses by connecting people, workflows, and systems with decision-ready data. For more information or to request a demo, visit quorumsoftware.com or email info@quorumsoftware.com.
