

My Quorum TIPS Overview

Gain scheduling and accounting efficiencies with integration that simplifies the complexities of these functions. Combining over 20 years of industry experience with continuous software innovation.

“When it came to our system selection, Quorum was the clear choice based on their deep industry experience, knowledge of the midstream business and their understanding of Brazos. With My Quorum TIPS, we will be saving roughly 30 hours per month and completing our end-to-end settlement process a lot faster.”

John Souders
Controller at Brazos Midstream

Gas Scheduling & Accounting

Quorum's gas scheduling and accounting software optimizes complex, interrelated midstream processes with the first solution that simplifies and optimizes natural gas processing and scheduling.

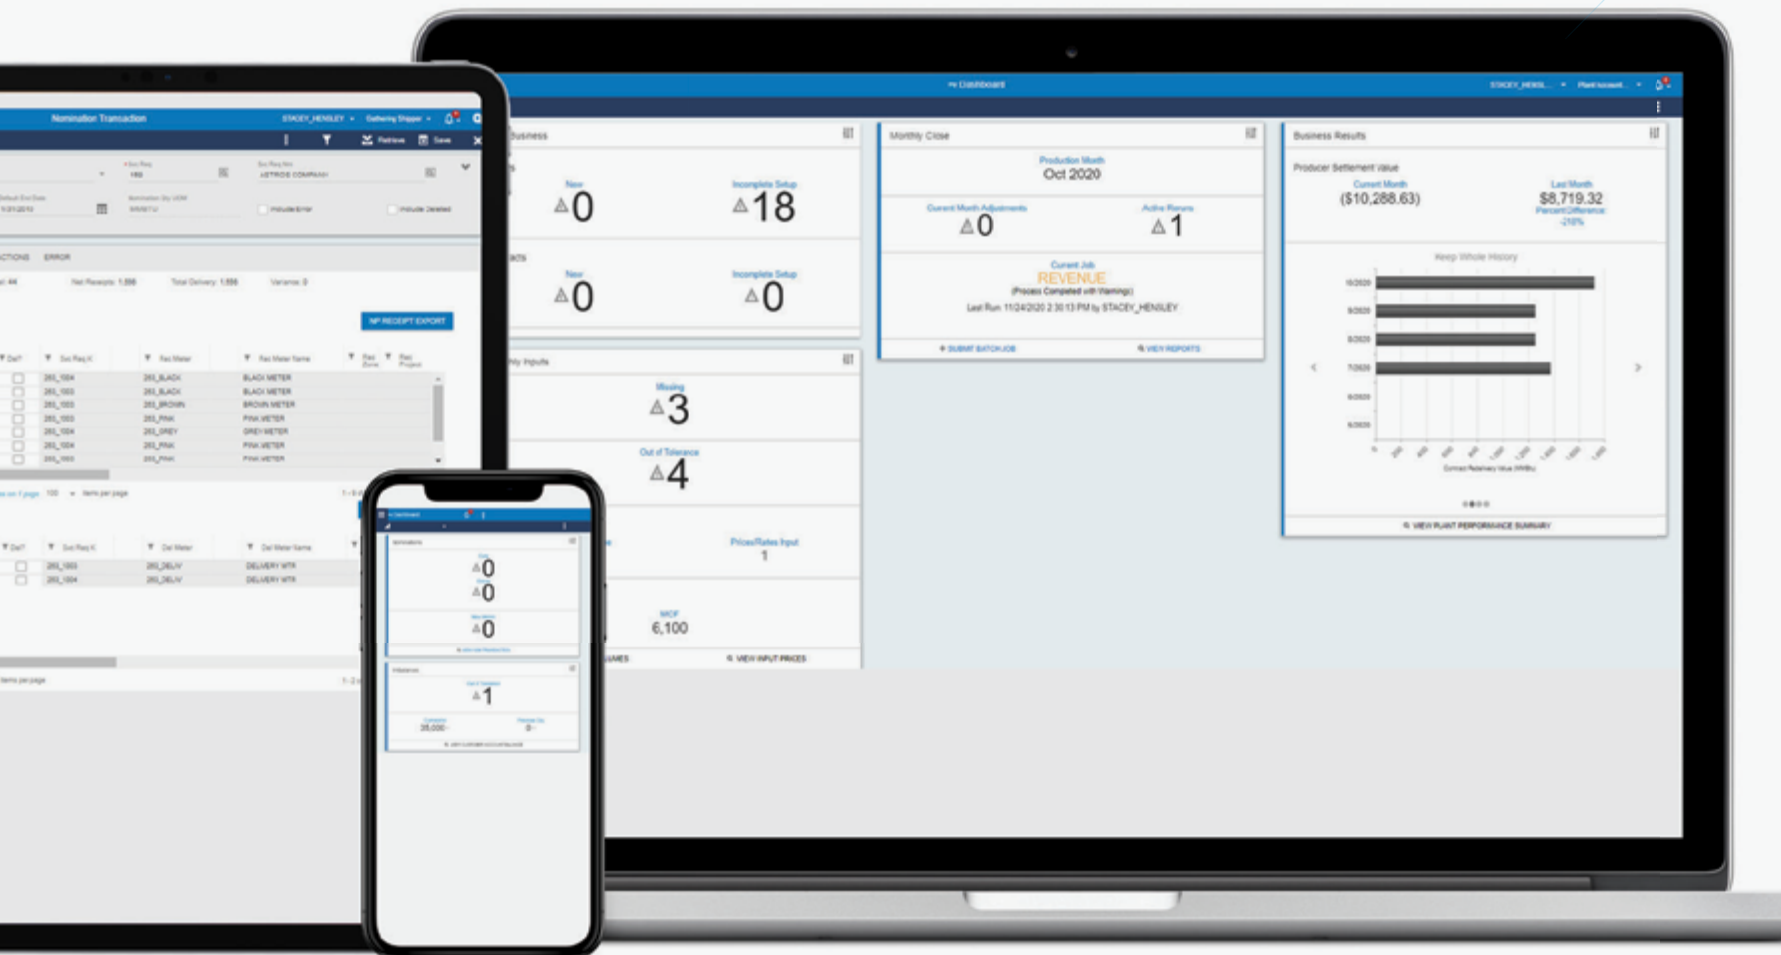

Better Internal Performance and Customer Experiences

- ◇ Trust your books and results on day one
- ◇ Manage more assets per accountant and scheduler
- ◇ Close the books quickly and accurately
- ◇ Stay compliant

Unmatched Performance, Transparency, and Time to Value

Optimize the complex, interrelated midstream business processes while improving customer satisfaction that is purpose-built for oil and gas.

Accounting

Shorten close cycles and maximize production by streamlining accounting processes and easily adjusting to changing business needs.

Contract Management

Simplify contract and confirmation processes with workflow tools and automated delivery.

Customer Portal

Increase customer satisfaction and streamline shipments with an all-in-one portal for shipper/operator interactions.

Scheduling

Manage shipper nominations and imbalances during the month of flow.

Measurement

Integrate with FLOWCAL to simplify and streamline monthly close processes and reduce costly mistakes due to bad data.

Forecasting

Predict current and future production month processing results to assist with short- and long-term planning.

Division Order & Disbursements

Manage distribution of revenues to operators and interest owners with division order and integrated disbursement.

Standard & Regulatory Reporting

Access the information you need for ongoing financial and operational reporting as well as maintaining regulatory compliance.

Quorum Software powers growth and profitability for energy businesses by connecting people, workflows, and systems with decision-ready data.
