

# MAXIMIZE YOUR TIME AND **CONTRACT** HEALTH

## CONTRACT HEALTH CHECK

If you're in the heavy asset industry, it's critical that you maintain healthy contracts. Terms and conditions set everything from quality standards to schedules, payment terms, and performance. Not to mention—a well-maintained contract can help you avoid vendor disputes and build stronger owner-contractor relationships.

Find out how the Track platform centralizes your contract data—all in one place.

With Track, your team can clearly see contract gaps for labor, equipment, and materials.

Check off the categories where Track can help you boost your contract standards--plus some examples of how we check your contract health.

Take the next step. You'll get a free contract health check when you book a meeting with one of our experts.\*

**Request Contract Assessment**

- ☐ Equipment: Does the contract specify daily, weekly, and monthly rates for individual pieces of equipment on site?
- ☐ Invoicing: Does the contract specify a time limit for invoice submission?
- ☐ Labor Rates: Does the contract specify if double time is payable?
- ☐ Materials: Does the contract specify if mark-ups are applicable?
- ☐ Off Site Time: Does the contract specify when off-site work or training is billable?
- ☐ Roles / Skills: Does the contract specify qualifications, skills, and competencies for each role level?
- ☐ Travel Time: Does the contract specify if travel time between sites is billable during shift?
- ☐ Other: Does the contract specify if lunch or any other break time is chargeable in the contract?

\*Health checks are subject to eligibility.
