

TRANSFORM YOUR DATA EXPERIENCE

Introducing myReports, myTrack's New Self-Service Reporting Tool

Unleash the power of data with myTrack's latest innovation: myReports. You'll elevate how you interact with your data with unmatched flexibility, versatility, and efficiency — all seamlessly integrated into the myTrack Platform.

REVOLUTIONIZING YOUR REPORTING

Gone are the days of relying on specialists for report generation. With myReports, users can now create a myriad of report types, including dynamic charts, insightful gauges, structured tabular layouts, and performance-driving KPIs.

Whether you're visualizing trends, monitoring key metrics, or dissecting complex datasets, the possibilities are limitless.

Personalizing reports to meet individual user needs, ensuring a customized reporting experience.

EXPLORE THE POWERFUL FEATURES OF MYREPORTS

- **USER EMPOWERMENT**

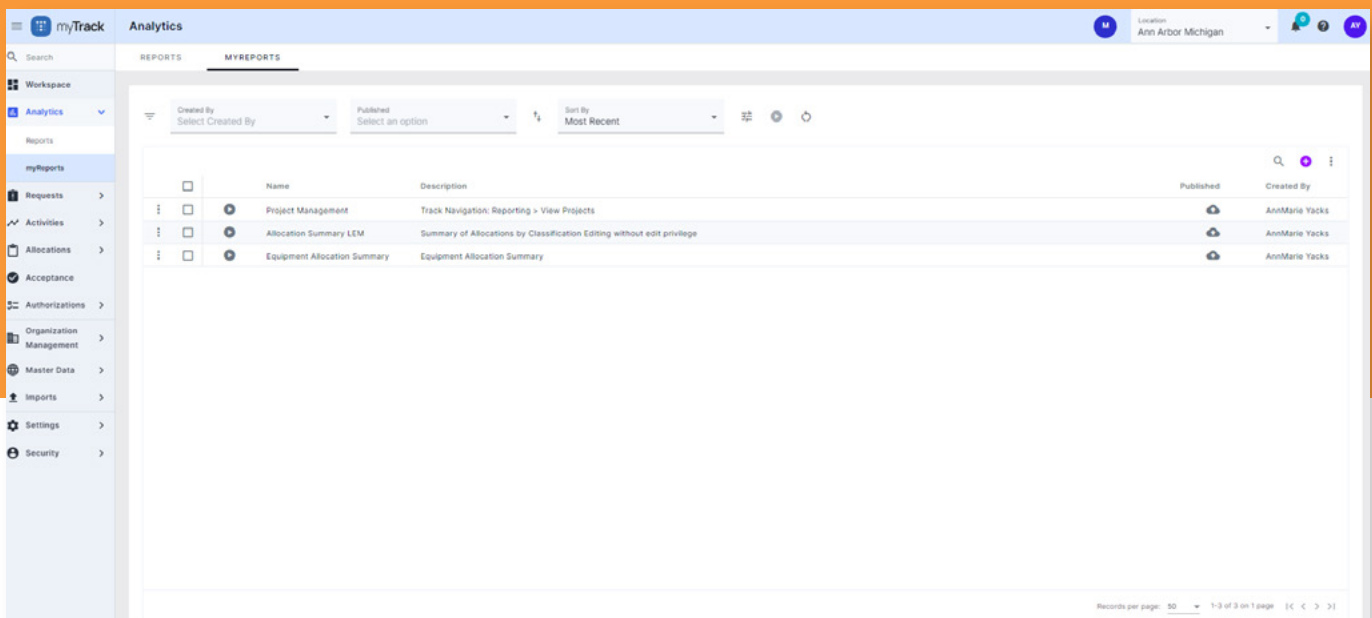

This feature is designed for everyone, not just data analysts or IT specialists. Authorizers, vendors, and coordinators can all benefit from this transformative feature. Authorizers gain real-time insights into project progress, vendors can track performance metrics seamlessly, and coordinators can streamline operations with customized reports tailored to their specific needs.

- **MISCROSOFT POWER BI DATA VISUALIZATION**

Our commitment extends beyond functionality. By leveraging Microsoft PowerBI's robust capabilities, users gain access to a wealth of comprehensive training resources and support. From comprehensive tutorials to a vibrant community of fellow users, mastering the art of data visualization has never been more accessible.

- **TRANSFORMATIVE REPORTING**

With myReports, users break free from traditional reporting structures, unlocking their full potential as data-driven decision-makers. Whether in the boardroom, on the frontlines, or anywhere in between, you'll empower your team to transform raw data into actionable insights with myTrack.

myReports includes functionality allowing users to publish & share their reports so other users can run & copy them. Only the creators can edit or delete the original reports to maintain integrity while providing flexibility for others to utilize them.

Discover the Benefits of myTrack's myReports

Unlocking the power of myTrack's Self-Service Reporting feature brings a wealth of advantages to your organization. Here are the key benefits that will transform how you manage and utilize your data.

Increased Agility | Users can create reports as needed without relying on IT or specialized personnel, allowing for quicker responses to changing business needs.

Ownership Capability | Users have direct control over report creation, editing, and sharing, fostering a sense of ownership and empowerment.

Reduces Dependency | Organizations will be less reliant on IT or external vendors for generating reports, reducing bottlenecks, and accelerating decision-making processes.

Greater Customization | Users can tailor reports to their specific requirements, ensuring that insights are relevant and actionable.

Cost Savings | Self-service reporting can lead to cost savings for organizations by reducing the need for custom report development or external services.

Improved Insights | Self-service reporting can lead to cost savings for organizations by reducing the need for custom report development or external services.

Faster Time-to-Insight | Self-service reporting enables users to quickly generate reports without waiting for specialized resources, leading to faster time-to-insight and quicker decision-making.

Take the Next Steps with myReports

Empower your team with myTrack's Self-Service Reporting. You'll not only transform how you interact with data, but you'll also unlock new levels of efficiency and insight. Embrace the future of data-driven decision-making today.
