

# Business Transformation Starts with People

## People Perform Better with NovoEd

You already know *what* your employees need to learn, the challenge is *how*.

### Is Your L&D Toolset Ready for Today's Skills Challenge?

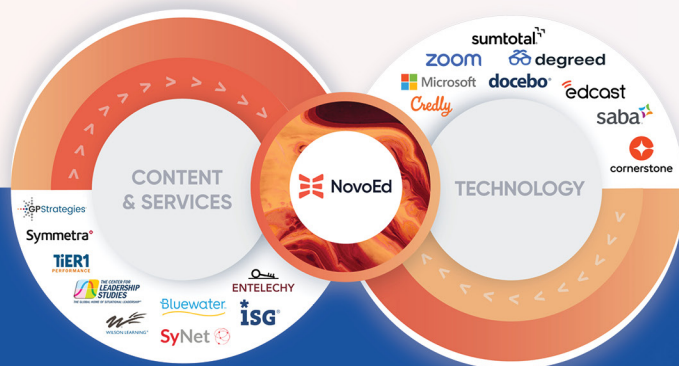

Your LMS and LXP serve you well for learning content discovery and delivery, but on their own they won't equip your people with the strategic skills required to optimize performance in an increasingly dispersed and global workforce.

Leading companies choose NovoEd because it amplifies learner engagement and provides a place to practice and apply skills—multiplying the value of your other learning systems and delivering a **cohesive experience that is better for your learners and your learning team.**
