

# NovoAI Features

NovoAI is a collection of Artificial Intelligence tools in the NovoEd platform that makes it easy to build high impact learning programs at scale

## An AI that Puts People First

Our approach to integrating AI features in our products is selective and targeted to enable L&D and HR leaders to do more with less while **supporting and enhancing the human interactions** that are core to our platform and to learning science.

### 3 FOCUS AREAS

#### Deliver Global Learning Experiences at Scale

**Enable alignment and connection with collaborative cohorts and self-paced guided learning**

*...so you can* scale delivery and facilitation of global and multi-lingual cohorts.

#### Create High-Impact Learning Programs

**Reduce the manual administration of high-impact learning programs**

*...so you can* save time and money while driving best practices for effective learning.

#### Scale Feedback and Peer Learning

**Provide actionable feedback and encourage peer interactions**

*...so you can* make guided and peer learning more engaging and virtually effortless.

Unlike public AI tools, NovoAI protects your strategic and sensitive content, intellectual property, and company information.

#### Privacy

All AI models ensure separation of client data and are fully encrypted. NovoEd is not developing any AI models and will never use client data to train a model.

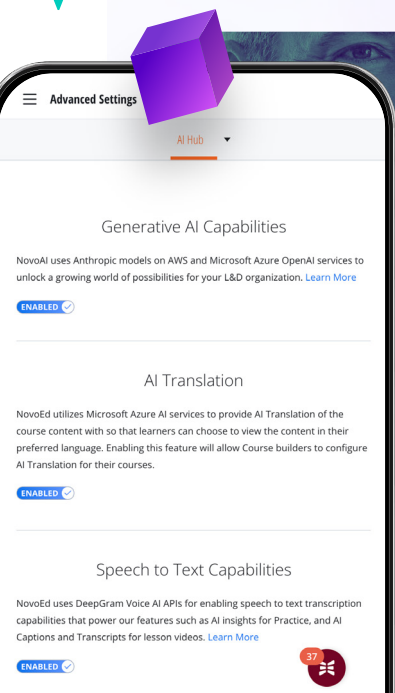

#### Security

All data is governed by our SOC 2 type 2 compliance and user data is encrypted in transit and at rest with a logical separation of customer data at all times.

#### Compliance

Adoption of AI models is optional and the services used are listed in our subprocessor list in our compliance center.

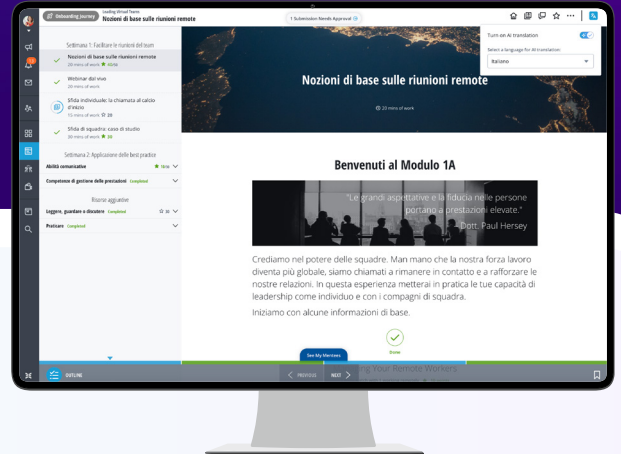

**NovoAI streamlines the design and delivery of program elements that previously required significant manual effort.**

## NovoAI Features

**NovoAI works across every part of a learning program - from authoring to administration and delivery, helping you scale feedback, practice, application, and social learning.**

# Initial Features

### AI Translation

Train learners across multiple languages in a single course environment, streamlining your program's development and deployment

### AI Quiz Generation

Create relevant and specific quiz questions from designated content to build and update programs faster

### AI Captions & Transcripts

Avoid captioning services costs while making video content accessible to learners with different abilities and learning preferences

### AI Summary & Key Takeaways

Increase learning impact by summarizing content to ensure learners understand essential concepts

### AI Practice Insights

Provide automatic and rapid feedback for learners on video and audio practice to help learners practice more intentionally

### AI Discussion Prompts

Create engaging discussion prompts based on selected content and learning objectives to enhance engagement

### AI Discussion Insights

Summarize key themes in discussions and challenge learners by prompting interaction with different perspectives

**The innovation doesn't stop here**

**Keep an eye out for updates!** We are constantly developing **NovoAI** features that add immediate value to your learning organization.

**Don't miss NovoEd's free Learning Experience GenAI course!** Learn how to develop a GenAI strategy for your workforce and see how NovoAI features can support your initiatives. [Enroll >](#)
