

MULTI-SITE ROLLOUTS

ENVIRONMENTS

- Multiple rooms, floors or buildings
- Manufacturing facilities
- Across town
- Campus locations

CAPABILITIES

- Large-scale deployments
- Multi-phased scopes of work
- 24/7/365 customer support call center
- Fully-equipped technicians
- Managed services and rollouts
- Deep expertise with retail and financial services
- Flexible contract structure
- Emergency dispatch services
- Moves/Adds/Changes (MAC activity)

One of the biggest obstacles to conducting a successful multi-site technology rollout, is driving consistently high quality performance when delivering a large volume of deployments, when using different field technicians at each site.

AFL has proven expertise to support your multi-site project requirements. Our team of professional project managers provide centralized command and control for even the most complex multi-phase scopes of work. AFL operates a 24x7x365 Call Center to smoothly dispatch on-site technicians prepared to deliver projects on-time ... every time!
