The data center is the heart of your operation. Whether it occupies one room, one or more floors, or an entire campus, AFL can supply any or all of the components for an end-to-end Tier 1 to Tier 4 operation. We are a premier embedded, day-to-day vendor for multiple clients providing active equipment support including install, troubleshoot and decommission.

With decades of experience in fiber optic cabling solutions, Internet Protocol (IP) applications, enterprise service and support, AFL has the expertise to maximize the performance and scalability of your data center applications.
