Q2

Spend Manager for Small Business

66% of small businesses still manage receipts and expenses manually, with 80% of small businesses citing expense reconciliation as their most painful task. Spend Manager's seamless capture and auto-reconciliation functionality helps them save time, money, and stay on track.

Spend Manager for Consumer

Spend Manager enables consumers to have more fidelity and control into their spending habits, enabling financial wellness practices. Spend Manager makes it easy to capture deductible expenses for tax preparation, better manage household spend, organize spending for DIY projects, and monitor returns and warranties.

How it works

Capture

Capture documents via mobile camera, web upload, and email forwarding (e-receipts)

Organize

Add documents to folders, view by merchant category, create notes, and search by date, merchant, or item-level details.

Action

Reference line-item spend, export one or many documents at a time, and auto-generate expense reports.
